Department of Mathematics

Certificate Course: "Principles of Programming Language"

(Computer based Practical)
Syllabus: 2022-23

Objectives:

- 1) The course is designed to provide principles of programming in C language.
- 2) Students will be able to develop logics which will help them to create programs, applications in C.
- 3) To provide exposure to problem solving through programming.
- 4) Also by learning the basic programming constructs they can easily switch over to any other language in future.
- 5) To study and implementation of numerical analysis to solve problems in Mathematics for which a quantitative theory already exists.

Chapter No.	Topic Name	No. of Lectures
1	Concepts of programming 1. Definition and Properties of algorithms, Algorithm development. 2. Flow charts- symbols and simple flowcharts.	
2	Programming with C 1. Structure of C program, Character set, key words, Constants and variables, Variable names, Data types and their declarations, Symbolic Constants. 2. Input/output functions: scanf (), printf (), getchar (), putchar (), getch (), gets (), puts (). 3. Operators and Expressions: Arithmetic Operators, Relational Operators, Logical Operators, Assignment Operators, Conditional Operator.	12

Following programs will be discussed in theory lectures:

- 1. Sum of digits of an integer
- 2. To find factorial of a number
- 3. Checking and printing of prime numbers
- 4. Root of equation/s-Bisection method, Newton Raphson method, Gauss-Elimination Method
- 5. Numerical integration- Trapezoidal, Simpson's 1/3rd rule, Simpson's 3/8th rule.

To, The Chairman,

Board of Curriculum Development,

K. J. Somaiya College, Kopargaon.

Subject: Regarding the permission for the certificate course in Principles of Programming Language.

Respected Sir,

Considering the skilled based requirement of students of Mathematics department. We have designed 30 contact hrs Certificate course entitled "Principles of Programming Language". It is skilled based course to understand the basic concepts in programming.

The certificate course is useful to the UG level students from Mathematics department. This is the basic knowledge course about computer programming information. We are quite sure about the success of this certificate course and desirous to start this course at diploma level next year.

The required infrastructure is available in the department. The present faculty is ready to provide such knowledge and teach to the students about the programs and its uses in the field of Mathematics.

So, I request you to please give me the permission to conduct the 30 contact hrs certificate course in the subject of Mathematics.

Thanking you

Your faithfully

Brief summary of activity/Event:

Department of Mathematics runs a certificate course "Principles of programming language". The objective of the course is to develop logics that will help students to create programs. It also aims to provide exposure to problem-solving through programming. Head of the department Dr. B.D. Gavhane inaugurated this course.

The course content is made available to students. The students learn about programming language and solve mathematical problems using programs. Students studied the implementation of numerical analysis to solve problems in Mathematics for which a quantitative theory already exists.

The outcome of activity/Event:

3

- 1. Developed logic that helped students to create programs.
- 2. Students learned the basic programming constructs they can easily switch over to any other language in the future.

Proposal to BCD

K. J. Somaiya College of Arts, Commerce & Science, Kopargaon. Department of Mathematics

Date: 18/02/2022

To,

The Chairman,

Board of Curriculum Development,

K. J. Somaiya College, Kopargaon.

Subject: Regarding the permission for the certificate course in Principles of Programming Language.

Respected Sir,

Considering the skilled based requirement of students of Mathematics department. We have designed 30 contact hrs Certificate course entitled "Principles of Programming Language". It is skilled based course to understand the basic concepts in programming.

The certificate course is useful to the UG level students from Mathematics department. This is the basic knowledge course about computer programming information. We are quite sure about the success of this certificate course and desirous to start this course at diploma level next year.

The required infrastructure is available in the department. The present faculty is ready to provide such knowledge and teach to the students about the programs and its uses in the field of Mathematics.

So, I request you to please give me the permission to conduct the 30 contact hrs certificate course in the subject of Mathematics.

Thanking you.

Encl: Syllabus copy of Certificate Course.

Your faithfully,

Dr. B. D. Gavhane

Subject: Permission for the certificate course in Mathematics

Respected sir,

As per your application dated 18/02/2022. The members of BCD conducted a meeting and after thorough discussion we have decided to accept your proposal of certificate course 'Principles of Programming Language' in Mathematics. The Committee has permitted to Department of Mathematics for 30 contact hrs. Certificate course 'Principles of Programming Language' under following conditions.

The Term and Condition are follows:

- 1. Syllabus to be completed in stipulated time.
- 2. Conduct Theory examination at the end of the course.
- 3. Minimum 15 admissions are permissible for conducting the course.

Members of the committee -

- 1. Dr. B. S. Yadav

Brief summary of activity/Event:

Department of Mathematics runs a certificate course "Principles of programming language". The objective of the course is to develop logics that will help students to create programs. It also aims to provide exposure to problem-solving through programming. Head of the department Dr. B.D. Gavhane inaugurated this course.

The course content is made available to students. The students learn about programming language and solve mathematical problems using programs. Students studied the implementation of numerical analysis to solve problems in Mathematics for which a quantitative theory already exists.

The outcome of activity/Event:

- 1. Developed logic that helped students to create programs.
- 2. Students learned the basic programming constructs they can easily switch over to any other language in the future.

Syllabus

Department of Mathematics

Certificate Course: "Principles of Programming Language"

(Computer based Practical)
Syllabus: 2020-21

Objectives:

- 1) The course is designed to provide principles of programming in C language.
- 2) Students will be able to develop logics which will help them to create programs, applications in C.
- 3) To provide exposure to problem solving through programming.
- 4) Also by learning the basic programming constructs they can easily switch over to any other language in future.
- 5) To study and implementation of numerical analysis to solve problems in Mathematics for which a quantitative theory already exists.

Chapter No.	Topic Name	No. of Lectures
1	Concepts of programming 1. Definition and Properties of algorithms, Algorithm development. 2. Flow charts- symbols and simple flowcharts. 3. Flow charts and Algorithms for Kinematic equations, Free fall, Equation of state, Factorial of a number. 4. Types of programming language: Lower, middle and higher level languages.	6
2	Programming with C 1. Structure of C program, Character set, key words, Constants and variables, Variable names, Data types and their declarations, Symbolic Constants. 2. Input/output functions: scanf(), printf(), getchar(), putchar(), getch(), gets(), puts(). 3. Operators and Expressions: Arithmetic Operators, Relational Operators, Logical Operators, Assignment Operators, Conditional Operator.	12

	4. Formatted input/output Control statements: If, if else, while, do while for loop, nested control structures (nested if, nested loops), break, continue, switch- case statement, go to statement. 5. Function Use of Library functions: e.g. mathematical, trigonometric, graphics. 6. Arrays: 1-D, 2-D and String 7. Concept of Pointers	
3	Computational Numerical Methods 1. Errors in Computation: Inherent errors in storing numbers due to finite bit representation to use in Computer, Truncation error, round off errors (Explain with the help of examples) 2. Iterative methods: Discussion of algorithm and flowcharts and writing C programs for finding single root of equation using Bisection method, Newton-Raphson method, Gauss-Elimination Method. 3. Discussion of algorithm and flowcharts and writing C program for Trapezoidal rule and Simpson's 1/3rd rule, Simpson's 3/8th rule (derivation of formula is not expected).	12
	Total No. of Lectures	30

Following programs will be discussed in theory lectures:

- 1. Sum of digits of an integer
- 2. To find factorial of a number
- 3. Checking and printing of prime numbers
- 4. Root of equation/s-Bisection method, Newton Raphson method, Gauss-Elimination Method
- 5. Numerical integration- Trapezoidal, Simpson's 1/3rd rule, Simpson's 3/8th rule.

Proposal to BCD

K. J. Somaiya College of Arts, Commerce & Science, Kopargaon. Department of Mathematics

Date:

14/08/2020

To,
The Chairman,
Board of Curriculum Development,
K. J. Somaiya College, Kopargaon.

Subject: Regarding the permission for the certificate course in Principles of Programming Language.

Respected Sir,

Considering the skilled based requirement of students of Mathematics department. We have designed 30 contact hrs Certificate course entitled "Principles of Programming Language". It is skilled based course to understand the basic concepts in programming.

The certificate course is useful to the UG level students from Mathematics department. This is the basic knowledge course about computer programming information. We are quite sure about the success of this certificate course and desirous to start this course at diploma level next year.

The required infrastructure is available in the department. The present faculty is ready to provide such knowledge and teach to the students about the programs and its uses in the field of Mathematics.

So, I request you to please give me the permission to conduct the 30 contact hrs certificate course in the subject of Mathematics.

Thanking you

Your faithfully

Dr. B. D. Gavhane Head, Dept. of Mathematics

Subject: Permission for the certificate course in Mathematics

Respected sir,

As per your application dated 14/08/2020. The members of BCD conducted a meeting and after thorough discussion we have decided to accept your proposal of certificate course 'Principles of Programming Language' in Mathematics. The Committee has permitted to Department of Mathematics for 30 contact hrs. Certificate course 'Principles of Programming Language' under following conditions.

The Term and Condition are follows:

- 1. Syllabus to be completed in stipulated time.
- 2. Conduct Theory examination at the end of the course.
- 3. Minimum 15 admissions are permissible for conducting the course.

Members of the committee -

- 1. Dr. B. S. Yadav

Brief summary of activity/Event:

Department of Mathematics runs a certificate course "Principles of programming language". The objective of the course is to develop logics that will help students to create programs. It also aims to provide exposure to problem-solving through programming. Head of the department Dr. B.D. Gavhane inaugurated this course.

The course content is made available to students. The students learn about programming language and solve mathematical problems using programs. Students studied the implementation of numerical analysis to solve problems in Mathematics for which a quantitative theory already exists.

The outcome of activity/Event:

- 1. Developed logic that helped students to create programs.
- 2. Students learned the basic programming constructs they can easily switch over to any other language in the future.

Certificate Course: "Principles of Programming Language"

(Computer based Practical)
Syllabus: 2019-20

Objectives:

- 1) The course is designed to provide principles of programming in C language.
- 2) Students will be able to develop logics which will help them to create programs, applications in C.
- 3) To provide exposure to problem solving through programming.
- 4) Also by learning the basic programming constructs they can easily switch over to any other language in future.
- 5) To study and implementation of numerical analysis to solve problems in Mathematics for which a quantitative theory already exists.

Chapter No.	Topic Name	No. of Lectures
1	Concepts of programming 1. Definition and Properties of algorithms, Algorithm development. 2. Flow charts- symbols and simple flowcharts. 3. Flow charts and Algorithms for Kinematic equations, Free fall, Equation of state, Factorial of a number. 4. Types of programming language: Lower, middle and higher level languages.	6
2	Programming with C 1. Structure of C program, Character set, key words, Constants and variables, Variable names, Data types and their declarations, Symbolic Constants. 2. Input/output functions: scanf(), printf(), getchar(), putchar(), getch(), gets(), puts(). 3. Operators and Expressions: Arithmetic Operators, Relational Operators, Logical Operators, Assignment Operators, Conditional Operator.	12

Proposal to BCD K. J. Somaiya College of Arts, Commerce & Science, Kopargaon. Department of Mathematics

Date: 03/07/2019

To,
The Chairman,
Board of Curriculum Development,
K. J. Somaiya College, Kopargaon.

Subject: Regarding the permission for the certificate course in Principles of Programming Language.

Respected Sir,

Considering the skilled based requirement of students of Mathematics department. We have designed 30 contact hrs Certificate course entitled "Principles of Programming Language". It is skilled based course to understand the basic concepts in programming.

The certificate course is useful to the UG level students from Mathematics department. This is the basic knowledge course about computer programming information. We are quite sure about the success of this certificate course and desirous to start this course at diploma level next year.

The required infrastructure is available in the department. The present faculty is ready to provide such knowledge and teach to the students about the programs and its uses in the field of Mathematics.

So, I request you to please give me the permission to conduct the 30 contact hrs certificate course in the subject of Mathematics.

Dept. o

Thanking you

Your faithfully

Subject: Permission for the certificate course in Mathematics

Respected sir,

As per your application dated 03/07/2019. The members of BCD conducted a meeting and after thorough discussion we have decided to accept your proposal of certificate course 'Principles of Programming Language' in Mathematics. The Committee has permitted to Department of Mathematics for 30 contact hrs. certificate course 'Principles of Programming Language' under following conditions.

The Term and Condition are follows:

- 1. Syllabus to be completed in stipulated time.
- 2. The Admission fee applicable for per students is Rs.100 only.
- 3. Conduct Theory examination at the end of the course.
- 4. Minimum 15 admissions are permissible for conducting the course.

Members of the committee -

- 1. Dr. B. S. Yadav
- 3. Prof. V. C. Thange

Brief summary of activity/Event:

Department of Mathematics runs a certificate course "Principles of programming language". The objective of the course is to develop logics that will help students to create programs. It also aims to provide exposure to problem-solving through programming. Head of the department Dr. B.D. Gavhane inaugurated this course.

The course content is made available to students. The students learn about programming language and solve mathematical problems using programs. Students studied the implementation of numerical analysis to solve problems in Mathematics for which a quantitative theory already exists.

The outcome of activity/Event:

- 1. Developed logic that helped students to create programs.
- 2. Students learned the basic programming constructs they can easily switch over to any other language in the future.

Antivious Update and Potches

What is an antivious defination update?

Most anti-visses software vendons including symantec microsoft and McAFee roll out defination updates quite frequently. It therefore becomes ess-ential for network administration like you to keep a constant watch of these updates so as to sealte the network desktops. However with difination updates coming out every other day most of the time it becomes tedious to accommodate the tracking f update process in your daily routine.

In case each of your network PCs is configured to directly communicate with the download serve of the anti-virus vendor it should definitely equate to huge bandwidth

consumption.

Why should you have an antivirus defination update mechanism. Antivirus software have becomes an integral part of network security. People who white malicious code are well aware of the. operating system lapses of your network.

Installing an antivirus software on your network on your network desktops. However network security management does not end with just the installation of an antivirus software It also needs regular tracking and updating of the latest virus definations, such as to rule out an apcoming vulnerable moment.

How to perform antivirus defination update using patch manager plus

For those of you running antivious software on your network computers, here is a bit of relief on difination updates.

This patch management softwares options help you simplify mechanism the process by automating the defination update mechanism.

- Using the automated patch deployment (APD) option you can stay informed about the latest antivirus defination updates through the automatically installed in the endpoint.

- For even more clarity on handling antivirus defination update.

Two keys benefits of employing patch

Automation of the defination update process
saves administrator time to be utilized for
some other uttension seeking task.
Efficiently deplays antivirus defination updates
in a controlled manner along with optimized
bandwidth consumption.

To keep it simple, patch manage plus takes
you one step closer towards scaming your
network computers from malware and
spywates.

Supported applications:

- Windows defender
- Mcafee virussian enterpnise
- Microsoft security essential

What is the difference between a patch and an upgracle

- · When a new vension of software is released . usens of that software are emitted to a free patch or an upgrade at a discounted price depending on the current liceense.
- A patch is affected to users who currently own a license for a vorsion of the software that has the some major revision number as the new release. For example, if a users owns version 1 of the software of version 1.1 is released.
- Upgrade pricing is affected to users who own a licence that has a major revision number different from that new release.
