Brief summary of activity/Event:

Department of Mathematics runs a certificate course "Principles of programming language". The objective of the course is to develop logics that will help students to create programs. It also aims to provide exposure to problem-solving through programming. Head of the department Dr. B.D. Gavhane inaugurated this course.

The course content is made available to students. The students learn about programming language and solve mathematical problems using programs. Students studied the implementation of numerical analysis to solve problems in Mathematics for which a quantitative theory already exists.

The outcome of activity/Event:

1. Developed logic that helped students to create programs.
2. Students learned the basic programming constructs they can easily switch over to any other language in the future.
